The compliance laws for holding art in Self-Managed Super Funds have proved challenging for many collectors! Many works in our Super sale include much loved acquisitions purchased by avid art collectors through private Super Funds. On the other hand this has provided new opportunities for buyers and collectors.

From May 9 the gallery will be rotating over 60 artworks through our exhibition spaces culminating in extended hours weekend Super Sale May 30-31. **There will be an industry information session on Thursday 28 May, 6-8pm**, for prospective buyers, collectors and art enthusiasts. Drinks and light refreshments will be provided. All welcome!
